Subject: Proposed Rule

Dear Sir or Madam:

I am writing to provide my two cents in regard to the proposed rule that could make me wait days before my contact lens shipment is sent out. As a consumer, I have the right to expect convenience and fast service when ordering my contact lenses. I appreciate the fact that when I order my lenses, they are mailed out the same day and can arrive virtually within 24 hours if I choose to pay the shipping charge.

Please do not take this convenience away from myself and my fellow contact lens wearers.

Sincerely,
Cathleen Curry Long
