**Subject:** Consumers have a right?

This is becoming more true everyday. I don't need to wait days to receive my contacts that help me to drive to work and do my job and spend money to keep our economy running. Do not make things harder on us Americans as it already is. Don't think of greed and money for oneself but for the sake of convenience for your fellow Americans, who are, in reality your neighbors, kids, sisters, brothers, grandchildren, grandma and grandpa... whoever. But just get the point. Thanks for listening. Have a beautiful and carefree day. Life is easy. Enjoy every minute of it.

Thanks,  
Kari Kovack
