**Subject:** contact lens quickly

To Whom it May Concern:

I have been wearing contact lenses for almost 25 years now and, of course, have seen many changes in the industry. One of the best changes is the speed at which I can order and purchase replacement lenses. Through my eye doctor, I can get new lenses in about 2 weeks (they usually say 2 weeks and they come in about 10 days later). That has not changed in about 20 years. Now, with companies such as 1-800-contacts, I can come home from the eye doctor appointment, call and order new lenses and have them at my door in about a week, earlier, if I pay for the faster delivery service. It has been wonderful! Sometimes, I just get down to that last contact lens before I realize it. So I am thankful for the speedy service that I can get. Hopefully, new rulings by our government officials will not change this service...I like it the way it is!! Thank you!

Sincerely,
