To whom it may concern,

I support the law that gives me the right to my contact lens prescription. I want it to be as easy as possible when it comes time to purchase contacts. I also want to be free to choose whoever I want to purchase them from.

I have attempted to get contacts through someone other than my doctor and they would not release the prescription. When they finally released the prescription it had expired the day before. They asked me to come and get a new exam but they were in Texas and I had moved to Illinois. This was way too difficult just to order some new contacts.

Thank you,
