**Subject:** Fairness to Contact Lens Consumers Act of 2003

I support this law 100% -- since my first pair of contact lenses obtained 30 years ago, I've always had problems with portability--my Doctors would refuse me a written prescription and would insist that I buy my lenses from them -- at greatly inflated prices! In fact, even now with the new law, my doctor in Carlsbad, N.M. would not give me my prescription until they found out that I was aware of this legislation.

Please keep this legislation strong -- it is very necessary.

Dr. Derek Northcutt
