To whom it may concern,

I was traveling in Europe this past summer when, unfortunately, one of my contact lenses ripped. And, as luck would have it, I had forgotten to pack a spare. I was able to call 1(800) contacts and they quickly shipped me a replacement. I really appreciate the convenience of ordering new lenses when I need them, and would not have enjoyed Paris nearly as much if I had not been able to see the Mona Lisa and "le Tour Eiffel"! I've been a contact lens wearer for 28 years and have never worn gasses in public in all that time. Please don't limit my access to contacts!

Sincerely,
