Subject: RE: Contact Lense Prescriptions

To Whom it may concern,

Please do not implement a waiting period to purchase contact lenses or receive my prescription from the doctor of my choice. An eye exam is a service just as the contact lenses are a service. When I go to an eye doctor I expect to receive the services I pay for which include the prescription. With 5 people in my family wearing glasses and contacts I must look for the best deal available. Doctors offices do not offer that with regards to contact lenses or even glasses. The cost to me would be at \$2,500.00 a year. Buy buying my contacts from a service I save \$500.00 dollars a year. Given the cost of living that is substantial.

Sincerely,

Rick E. Hanson
