Subject: Thank you

Thank you for protecting my right to get the best price I can find. A couple of years ago, I went to a doctor to keep my current prescription up to date. This is required by 1800contacts. My doctor, after charging me for the visit and exam had the audacity to not give me my prescription and said that I had to buy the contacts from him directly AT ALMOST DOUBLE THE COST. I felt that I shouldn't even pay for the visit since my rights were clearly being violated. I'm so happy you stood up for me with this law. THANK YOU and keep up the great fight!
