Subject: Contact Lens Law

To Whom It May Concern:

Please understand that as a contact lens user I fully support the new Contact Lens Law that enables me to immediately obtain a copy of my contact lens prescription from my eye doctor. I choose to purchase my contacts from suppliers of my choice and at a time convenient to me, often over the phone on weekends or over the internet. These are services and times not offered by my local eye doctors. Please do not allow this law to be changed and eliminate consumers having information about their contact prescription.
