Dear Sir or Madam,

I was informed that the FTC is considering a rule that would delay the shipping of contact lenses by people other than the prescribing doctor. I am strongly opposed to any rule that delays the shipment of contact lenses from any party that I request they ship to me. The government and health care professionals have no interest in what I do with my own eyes – I am over 18 and do not need a Nanny looking after me – or someone “looking out” for me while lining their own pockets.
