**Subject:** contact lens rule

The Federal Trade Commission has proposed a rule which could force Contact Lens Consumers to wait days (not hours) before our lenses can be shipped!

That is an outrage! Legislation such as this does not serve the majority! Under no circumstances would we find it acceptable to be inconvenienced when purchasing a NECESSITY ! Contact Lens Consumers are purchasing better vision, not firearms!!!

Consumers have a right to expect convenience and fast service when ordering contact lenses Federal Trade Commission – Don't Take Liberties With OUR LIBERTIES! We are consumers who value convenience and fast service!

Sincerely,  
Joelle McGhee
