To whom it may concern,

I would like to let you know of my support for the Fairness to Contact Lens Consumers Act of 2003. It should be my right to purchase my contact lens where I choose without a obligation to my doctor. It has been brought to my attention that there is an effort to limit my rights in this matter. I would like to let you know that I do not support this. Please ensure that my right to purchase my lens where ever I choose is preserved.

Thank You

Brian Nunley
