Subject: Contact Lens Prescription Right

I am a contact lense wearer/purchaser. I support the law which gives me the right to my "own" contact lense prescription. I want and deserve the freedom to choose where I purchase my contact lenses from. This should be no different than a medication prescription where I can make my choice on what pharmacy to use! I feel it is important that it is easy and convenient to choose where to purchase my contact lenses and not have to "fight" my eye doctor for my prescription to purchase elsewhere to save money (lots of money!). I pay for the visit and that should be included and I shouldn't have to purchase the lenses only through that physician--what a form of monopoly!

Thank you.
