**Subject:** contact lenses

I am a contact lens wearer and I am writing to you to let you know that I support the law which gives ME the right to receive a copy of MY OWN contact lens prescription. As I work in the health care profession I am familiar with the fact that a patients chart and medical history belongs to them and they can view and have copies of all their medical records at no expense. This is the same issue, my prescription is part of my medical record and I should have a right to obtain a copy of it at no cost.

I want the purchase of my contact lenses to be an easy experience and I want the freedom to purchase them from anywhere I choose.

Please do not hinder this freedom by passing laws in opposition to it!!

Thank YOu
