**Subject:** Fairness to Contact Lens Consumers Act of 2003

Hello,  
I received a letter from the company where I buy my contact lenses (1-800-CONTACTS) which informed me that my eye doctor must now provide me with a copy of my prescription. I was very pleased to hear this news.

I've been a contact lens wearer since 1998. Since then, I have never been able to obtain a written prescription for my lenses. As a consumer, I should have the right to shop around for the best deal, whether it be with the eye doctor or a company. Contact lenses are not cheap and I use new ones each month.

PLEASE keep this law in effect!

Thank you.

Sincerely,  
Eileen Hummel
