Subject: FTC Contact Lens Rule

It is very important for me to have the freedom of ordering my contact lens either online or by phone. I should not be forced to purchase and re-order my contact lens from my Doctor. It is very important for me to have the ease and convenience of ordering online or by phone.

I have to request a copy of my prescription and should not be forced to do so. On other occasions I have been denied by prescription.

Thank you
Christine Wolf
