To Federal Trade Commission

This email is in reference to the above captioned Contact Lense Rule whereby you want people to wait days to get their prescription filled. I am in total disagreement with the project, and this would probably cause people to drive without their corrective lenses, which would be dangerous. Why in the world would you want to hold up corrective lenses for days at a time? This IMHO is a silly rule that needs to NOT be passed. Let the lenses be shipped upon receipt of an order.

Sincerely,  
Joanna VanAuker

TX
