**Subject:** Fairness to Contact Lens Consumers Act of 2003

I am writing to say that I am in support of this new law and would like to continue to have the convenience and right to choose to shop anywhere I want to purchase contact lens products. Please do everything you can to continue to make it easy for consumers to shop where they wish for contacts. I have found that many doctor's offices charge "handling" and "shelving" fees that make purchases of contacts from them less affordable than shopping elsewhere. Being forced to buy direct from my optometrist would be like me having to purchase Windows for my computer. Please don't let this happen.
