Subject: I Want To Protect My Rights As A Contact Lens Wearer

Dear Commission:

Free enterprise is a tradition in our great country. I support the Fairness to Contact Lens Consumers Act of 2003, most particularly the portion of the Act which permits me to obtain my prescribed contact lenses for the best price in the open market.

A good ophthalmologist can be both business-minded and ethical; he can charge appropriate fees for his professional services while still being mindful of economic principles which dictate market value for the contact lenses themselves.

Please uphold this Act and honor the rights of me and my fellow contact lens wearers.

Regards,
Kim Ray
