Subject: I'm mad as hell and I'm not going to take it any more!

To whom it may concern:

I completely support the new contact lense law allowing me to have the CHOICE of where I purchase my lenses without the eye care professional dictating that choice by refusing to treat me if I do not purchase product from him. Yes, that's right...my eye doctor told me specifically that if I do not purchase my lenses AND eye glasses from him that he will refuse to treat me. To me, that is criminal. I don't see why there should be a problem as long as I have a current prescription. I have paid for that service now I want to be allowed to purchase product at a convenient and competetive price. My eye doctor was charging me at least \$10 more per box of lenses than where I would like to purchase my lenses. Again, criminal. It's cooersion and bullying and I don't know anywhere in the hypocratic oath that it speaks of threatening your patients in order to get them to do what you want them to do to benefit your own self! -seeking agenda.

Please enforce this law and ensure that lense wearers have the choice of not only our doctor but where we purchase our product.
