For years my optometrist has refused to give me a copy of my prescription because of his concerns about "quality control." Yet the lenses I pay Very High Prices for at his office arrive in sealed boxes directly from Bausch + Lomb.

I have experienced this frustration with Cohen's Fashion Optical. They advised me on several occasions that my prescription is not available to me or anyone. However, they once offered to give me the prescription for a fee close to the cost of an examination. This was totally unfair!

direct allows for the same lenses at a reduced cost relative to
that of my eye doctor. With healthcare costs increasing double
digit, I need to save every penny I can. Changing this law
will cost me at least \$15 more for 1 box of lenses. I need 4 boxes

I AM IN SUPPORT OF THE LAW THAT ALLOWS FOR FAIR TRADE WITH REGARD TO PURCHASING CONTACT LENSES. AN EYE DOCTOR IS NOT AS CONVENIENT IN PURCHASING LENSES AS ARE SOME OF THE NATIONAL DISTRIBUTORS. IF THE LAW WERE REPEALED I WOULD DEFINITELY OPT FOR LASIK SURGERY JUST TO SATISFY THE LOCAL EYE DOCTORS THAT ARE CARRYING BECAUSE THEY CAN'T CONCURE! I WILL NOT BE LIMITED IN CHOICE WITH RESPECT TO WHERE I CAN BUY MY CONTACT LENSES.

Sincerely,

Jeffrey S. Gliven

To whom it may concern at the FTC:

I fully support the law which gives me the right to my contact lens prescription. I want to have the freedom to choose where I buy my contacts. When I first tried to buy my contacts from 1-800-CONTACTS, rather than my eye doctor, it took several phone calls and a letter from me to the doctor before the doctor released my prescription. It is a violation of my right to my medical record not to allow me my lens prescription!

thought to be a form of implicit.

I have been wearing contacts for over 20 years. I find it very inconvenient to have to run back and forth to the eye doctor everytime I need new contacts. Not to mention the expense involved. If I can buy glasses anywhere, I should be able to make the same choice for contacts.

Dear Federal Trade Commission,

I support the law that gives me the right to my contact lens prescription. I greatly appreciate the easiness and convenience of obtaining contacts with the freedom to choose where I am able to purchase them. I feel that I should not be limited to where I am able to obtain them as this would be simply unfair to me and after all it is my prescription and I should be free to use it where I choose. Thank you for your time and consideration regarding this matter.

Sincerely,

Todd W. Myty

I support the Contact Lens Consumers act of 2003. I use a professional eye doctor to check my eyes and write a prescription. I then can shop around to find the best value contacts for my personal use. I can thus have more choice than just what the doctor carries at his office. My eye doctor has been supporter of this for 20 years.

Please uphold the Fairness to Contact Lens Consumers Act of 2003, requiring eye doctors to provide a copy of my contact lens prescription. I pay for regular eye check-ups and purchase eye glasses from my optometrist. Just as with a prescription medication, I should have the freedom to choose where I purchase my contact lenses. This is less about price for me and more about convenience. Rather than trying to "stretch" the wear limits on my lenses because I don't have time to go into my doctor, I just can order on-line and have them in a few days.
