Subject: In support of the contact lens law

I am writing regarding the Fairness to Contact Consumers Act. I want to make sure that this act stays in effect. This law makes it affordable and convenient for me to get the contacts that I need. I believe it promotes fair business practices and makes contact lens pricing more affordable.

Contact lenses are not a convenience for me, I cannot be with out them. I have had problems in the past relying on doctors offices with short business hours and no specialized inventory. My prescription should belong to me and I should have the right to shop as I choose.

Sincerely,

Linda Neumann
