**Subject:** Law & Rules Limiting Access to Contact Lens Prescriptions

It has been brought to my attention that efforts are being made to limit the free access by patients to their own prescriptions for contact lens. Please be aware that I am in support of free and easy access to my own prescription for contact lens and wish to have the ability to provide that prescription to any contact lens supplier of my choice. Please see that the free and easy access by consumers to their contact lens prescriptions is made possible by enforcing the Fairness to Contact Lens Consumers Act of 2003.
