Subject: Support for Fairness to Contact Lens Consumers Act of 2003

Dear FTC,

I am in favor of maximizing our personal freedom regarding the purchase of contact lenses. We should have access to our prescriptions and be allowed to order contact lenses through the mail, rather than purchase them from our eye doctors. The purchase of lenses at the eye doctor is both inconvenient and expensive. Please retain the Fairness to Contact Lens Consumers Act of 2003.

James R. Plummer
