Subject: Support of the New Contact Lens Law

Dear Sir(S):

I am in favor of maintaining the New Contact Lens Law which allows me to keep my prescription. I paid for this service which includes my prescription and it belongs to me.

Also, easily ordering my prescriptions effects my life in a direct way. If I don't have easy access to my contact refills then it restricts my ability to function. I work for the airline and attendance is the most important part of my job. I could easily get fired for not going to work only a few times!!

I hope that you consider this e-mail before rescinding this legislation.

Sincerely,

Megan Harvell
Texas
