**Subject:** Contact Lens Consumers Act of 2003

Sirs:

I support the law that gives me the right to obtain my contact lens prescription (my current doctor always give me mine).

I want the ability of buying my lenses to be an easy and convenient process and want the freedom to choose where I buy them from (my current doctor charges anywhere from \$5 to \$20 above the "normal" discount prices).

Do not change the Act of 2003... I like it just as it is.

Thanks, a concerned contact lens wearer,  
Randy Van Wyk
