Subject: Contact Lens Rule

We have been wearing contacts for over 30+ years. We fully support the Contact Lens Consumers Act of 2003. It is incredible to us that doctors are lobbying you to not enforce this rule. With health costs a concern for all Americans choice should be kept. Companies should not be forced to do business in a way that is neither convenient nor reasonable in cost to the consumer. We buy our Contacts through 1-800 contacts and more importantly pay a hefty fee to the eye doctor every year. Every year the doctors makes it difficult to get the prescription and we must inform them of the law. Why are they allowed to not give something we have paid for to us? If they want to compete for our business they should, we should have the same rights as eyeglass wearers. We fully support the Contact Lens Consumers Act.

Sincerely,

Zeke and Rebecca Martin
California
