Subject: RE: Proposal to make contact lens wearers WAIT

To Whom It May Concern:

I am a long time contact lens wearer. I think that the proposed rule making contact lens wearers wait DAYS, not hours, for their replacement lenses is unfair. I value convenience and fast service. Purchasing contact lenses quickly and easily from alternative sources is very important to me.

I am legally blind and wearing glasses is a hardship. My glasses are very heavy due to my impaired vision - I can only wear them for short periods of time. Therefore, not being able to get my contact lenses replacements in a timely fashion puts undue hardship on my way of life. please don't pass this proposed rule.

Thank you for your time.

Sincerely Yours,

Lynne Matsuno
