Over the past several years I have purchased my contact lenses on-line or via mail order. This has been both very convenient and cost-effective. At times I have had difficulty getting my eye doctor to provide me with my contact lens prescription and on a few occasions I was forced to buy contact lenses from the eye doctor (at a significant premium over what I pay from other sources) in order to get my prescription. I strongly support the Fairness to Contact Lens Consumers Act passed last year and I would be very disappointed to see the adoption of any new laws, rules or regulations which would erode the protections afforded by that law.

Thank you for your consideration of my opinion on this subject.
