Federal Trade Commission,

Re: the Contact Lens Law, I would like to voice my opinion on the support of this law. I am a senior citizen with a limited income who enjoys the convenience of contacts occasionally.

It is certainly less expensive for me to purchase my lenses outside of my physicians office and also more convenient to have them delivered to my home. I am in full support of the "Fairness to Contact Lens Consumers Act" and hope you will continue to support this also.

Sincerely,

Frances Charlesworth
