Subject: Im a contact lens wearer

To whom it may concern:

My name is Joseph Smith and I wear contacts. however if you pass the law or bill or rule or whatever it may be stating that I would need to wait days for my lenses to be shipped here's what may happen. First and foremost i would no tbe able to work if I cannot see. secondly, by my inability to work YOU would be costing me money that would pay bills, put groceries in my home as well as limiting my mode for transportation. If one cannot see, one cannot operate a motor vehicle. By you allowing this act to commence you would not only cause millions of people a loss of income but take away a child's ability to participate in sports, just because you prefer to make us, consumers, and voters wait. My friends that is absurd. I am not sure if you are aware that too many families are one paycheck away from being bankrupt, being behind on house payments, car payments or anything else you could imagine. Just be empathetic to other peoples situations, not all of us have government jobs, where we get special treatment and benefits. in conclusion, keep in mind that if this passes the American public will be infuriated.
