I support the new Contact lens law. Please let me be able to get my contact lenses on the internet. I am retired and cannot drive out of our very small community. I have to hire someone to take me and I feel so much better to get on the computer and order them & receive them in my mailbox. They are also cheaper and living on a fixed income, I really need this type of service.

To Whom It May Concern:

Please accept this note as my support for the Contact Lens Consumers Act of 2003. It is my opinion that most eye care physicians charge exorbitant costs for contact lens and this is very unfair to the wearer. I have been ordering my contact lens from 1-800-Contacts for years and have never had a problem except with my physician trying to talk me out of using them.

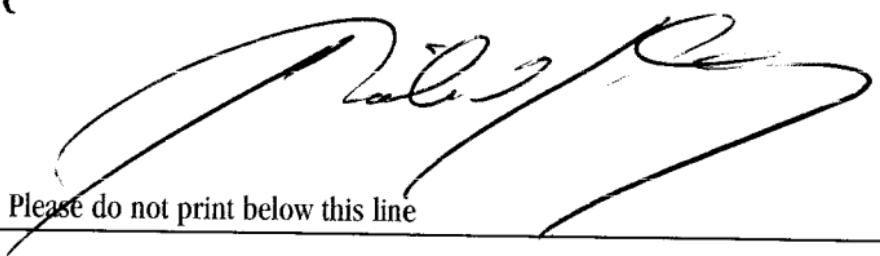

Please do not change the laws to help physicians that overcharge patients. The consumer should have their rights protected by laws not the physicians.

I support absolute flexibility in buying contact lens. I am in grad. school and have been in 3 different states and 2 different countries in the past 8 years. Re: Fairness to Contact Lens Consumers Act of 2003

Its about time that there is a law protecting the rights of contact lens wearers. Many of us are limited as to whom we receive vision care from based on our health insurance designated providers. Then we are faced with either buying contacts thru these providers or having to pay an extra cost to have a copy of our prescription for purchase elsewhere. Why should a consumer (who already has high health care costs) be forced to buy contacts from a provider at ridiculously high cost mark-ups when the same quality products are available elsewhere at more affordable prices? Consumers need to have a say in their health care and be allowed to make smart financial choices for themselves + their families.

Please continue to support this law.

~~Contact lenses are not a prescription drug and should be able to be bought freely.~~ By making it less convenient to buy new lenses, some eye doctors hope to increase their own revenues. What happens to customers in small towns, where there may only be a few doctors - or none? I imagine having no choice at all where (or what price) you buy your lenses.

I wholeheartedly support the Fairness to Contact Lens Consumers Act of 2003, and ask you to please honor the spirit of this law. Thank you.

to whom it may concern,

I want it known that I support the law which gives me the right to a copy of my contact lens prescription. I want the freedom to buy my lenses where I choose, and I want it to be easy & convenient when purchasing my contact lenses. My last optometrist would not give me a copy of my Rx after it had been 1 yr. since the last exam. Most people do not get a new contact Rx every year in my experience, and it is my opinion he was purposefully limiting my lens purchasing options.
