Gentlemen,

Please support the New Contact Lens Law. It is important to me that it be as easy as possible to purchase my contacts from whomever I chose.

I am a retired person - on a fixed income. IT is important that I purchase from a company who offers contacts at a price within my means.

My Medical Insurance provider - Kaiser Permanente - makes it easy to obtain my contact lens prescription.

I completely support the law which gives me the right to my contact lens prescription. I want buying my contact lenses to be easy and convenient, and I want the Freedom to choose where I buy them. My eye doctor charges a lot more for contact lenses, the same exact kind. Seven years I used to buy them from him, and he charged \$120.00 for a supply that I now pay elsewhere only \$80.00. It's my eyes, I should have my prescription for them if I want. I can barely afford to pay \$40

I like my optometrist - however - his office staff makes it very difficult to not purchase their overpriced contact lenses. I know they have to give it to me - so I insist - but when my 20-yr. old daughter went there - they would not give it to her & harassed her abt buying lenses from them. I finally had to call & demand the Rx. - it shouldn't be this difficult - if I was not aware of other lens vendors - we'd have to pay \$30 instead of \$20 per box!! That's a significant difference - besides ^{the fact that the exam fee has} jumped by \$50!!

Dear Sir/Madam @ FTC,

I support legislation that gives consumers the right to obtain their own contact lens prescriptions. It is absurd that in NC, consumers need to pay \$100 annually just to get an updated prescription, when they are perfectly capable of knowing when/when NOT to go to the doctor! To Whom it May Concern:

I have worn contacts for most of my life and it does make a big difference whether or not I have access to my prescription. My doctor's office charges \$10-\$15 more per box than I can find them elsewhere. To me that \$40-\$60 a year makes a big difference. Also I have a large prescription that often could take a week for the doctor's office to receive, but I can order online and get them in two days. Please make sure that we contact lens wearers are free to choose where/how we buy our contacts. I have to wear contacts everyday to function - it would be like telling someone which pharmacy they could buy medicine from.

As a consumer, I support the Fairness to Contact Lens Consumer's Act of 2003, because I should have the right to have my own prescription. I should be able to have the option and freedom to buy my contact lenses from whomever and wherever I wish. In the past, I have been refused my own prescription by my optometrist and I felt that I should be able to obtain my own medical information. I support the law that gives me the right to my prescription for contact lenses. I want the freedom to buy my lenses where ever I wish.

Why should lens wearers be different from glasses wearers?
Thank you for supporting my rights as a consumer.

I support the new Contact Lens law. My husband would wear contact lenses today but was forced to get some lenses through the doctor's office that were flimsy and very difficult to get in so he will not wear them or give a 2nd chance to contact lenses.

To the FTC - Everyone in my family
(5 of us) wear contact lenses of
different types. It is very important
that in our busy lives we are able
to get our contacts as easily as
possible. Therefore I always
get the prescriptions for everyone
and choose when to buy all the
contacts. I need to have that
flexibility and choice I support the
current law. Sincerely, Cathryn

To Whom it may concern:

I support the Fairness to Contact Lens Consumers Act of 2003.

In the past, I have been turned down by eye doctors who refused to provide me with a prescription for contact lenses, unless I purchased the lenses directly from them. In a country where we promote competition, it's unacceptable to me to not be allowed to shop around for the best price for lenses. I do not support any changes to the law that would limit my ability to obtain my contact lens/glasses prescription or to comparison shop for lenses.

Sincerely,
Deborah Norris

Please keep the law for people to
obtain their contact ^{lense} prescription.

I want to be able to buy my lenses wherever
I want. What is it with contacts?

It's ridiculous someone can't buy
them wherever, whenever. You can
buy alcohol anywhere, most hours. That
is a lot more damaging than corrective
contact lenses.

Re: Contact Lens Rule Project No. 411002

My two sons and I wear contacts. Supplying this family with contacts is an expensive proposition. As consumers, we should be able to retain the right to "shop around" and compare prices. We should have the right retained that we are provided with our prescription so that we can purchase contacts from retailers of our choosing.

To whom It May Concern:

I understand there is a new law pending to be able to receive my prescription for my eyes at no charge. I fully support this and I am actually concerned that this is vital to my freedom of purchase. In all types of medicine physicians are required to provide a prescription. Eye doctors should not be any different.

I am writing to express my concern about the contact lens consumers Act. I have been using an on-line service to purchase my lenses for over 5 years. This saves me both time and money.

Without the ability to get my prescription I would have to pay much more. This is very important as my wife and I have to work full time to make ends meet. Please keep this protection in place despite the lobbying efforts of the medical community. Thank you,

To Whom It May Concern:

As a regular wearer of contact lenses, I am in support of the new Contact Lens Law! As a consumer, I should have the right to purchase product from any business or manufacturer. Additionally, as a regular business traveler - the freedom (which our country is all about) to purchase contacts from anyone (like 1-800-Contacts) is a major benefit to me. Thanks for supporting those of us who wear contacts, and for hearing my thoughts! TRICIA R!

price gouging is what it is.

To whom it may concern,
As you must be aware Health care cost are
rising. My HMO no longer pays for contacts or
glasses. My daughter and I both wear contacts.

Contacts purchased from my eye doctor cost
400%+ more than what I can pay thru
an outside vendor. Please keep competition
strong and cost down. My family and I
are counting on you to do the right thing. I deserve
the right to shop around and so do you.
