In Support of Contact Lens Consumers Act of 2003

Before I had access to my contact lens prescription, and was therefore free to shop for the best price and convenience, I was paying six times the cost per lens by ordering my lenses through my eye doctor. Because they were so expensive, I was wearing them longer than was recommended, and that resulted in poor quality and discomfort. I was thrilled to be able to get my lenses for an appropriate price, in a timely manner, and have better eye health and vision as the result.

Making it more difficult for a patient to get his or her prescription for corrective contact lenses is, obviously, not in the best interest of the consumer. It is self-serving for the business of the optometrist. Health care should be about the patients' best interest — not the business.

Dear Sirs / madams,

We support the law that gives us the right to our contact lens prescription. Buying lenses should be easier, as I've had trouble getting my prescription before. Thanks for considering it.

I personally have had problems with optometrists not releasing my prescription. The doctor I had before my present one required that I buy the contacts from him. And without the prescription I could not go anywhere else. It is ridiculous to think that this issue should be treated differently with contacts than it is for eye glasses.

Please keep the Fairness to Contact Lens Consumers Act of 2003 intact. Do not let the eye doctor lobby change this in any way.

There are no grounds for making
a distinction between eyeglass
wearers & contact lens wearers.
Contact lens wearers should not be
impeded at all in obtaining their
prescription & shopping for their lenses.
—especially because our pockets are much
shallower than our ophthalmologists'. Thanks.

I like the idea that I have my right to my contact lens prescription. I shouldn't have to refer to some doctor everytime I want my know prescription.

Buying contacts thru my eye doctor is so expensive, I like to shop around for a good deal. Especially since I don't have ~~any~~ insurance that covers vision.

A LETTER FREEING him OF ANY "OBLIGATIONS"

I strongly support the new law. I want it to be easy to order my contacts the way I want, and I don't want a hassle trying to obtain my prescription from my eye doctor. In the past, I have had to go out of my way to get my prescription from my eye doctor, and they acted reluctant to give it to me. Also they strongly advised I order my contacts through them, even though I didn't want to.

right to easily obtain their prescription from their eye doctor. I've been advised that some eye doctors are already lobbying the FTC to limit these rights despite passage of the Fairness Act of 2003. Please support the continuance of the new Contact Lens Law.

It's unfair and frustrating for consumers to learn how difficult some eye doctors make it to obtain a copy of the prescription after the eye exam is completed. One company associated with LensCrafters refused to confirm my prescription when I attempted to purchase lenses from a much cheaper source (1-800-Contacts). I reported the matter to the Texas State Optometry Board and their investigation was a joke.

Dear FTC -

I support the new law which gives me the right to freely obtain a copy of my contact lens prescription. I enjoy the freedom of purchasing my contact lens from whomever I chose and not feeling obligated to purchase them from my doctor or an affiliated shop.

I do not know if the new law has changed the requirement that a new prescription be written every two years for contact lens refills. I do not have eye care insurance and this is a financial burden.

I fully support the law which gives me the right to my contact lens prescription, just as eyeglass wearers have. I Fully support the Contact lens
CONSUMERS Act! My eye dr. of
20 years of contacts REFUSES
to give me a PRESCRIPTION for

I do not believe eye doctors should have a monopoly on dispensing contact lenses.

As long as I pay him/her for the exam, I should have the right to purchase the lenses wherever I wish.
