I support the Fairness to Contact Lens Consumers Act of 2003. I believe it is every person's right to have copies of their prescriptions/medical records. It would not be fair for doctors of any kind to be able to monopolize the business of eye glasses, corrective lenses (or even some medications that may be available at a lower expense) It should be a consumer's choice as to where they spend their money and as to which products they choose to buy.

Dear Commission Members,

As a contact lens wearer, I appreciate and support the law that protects my right to access to my prescription. This allows me to buy lenses by mail, phone or via Internet from Hawaii from reliable dispensers such as 1-800-Contacts.

Please continue to protect this right to my information by upholding the law.

Thank you,
Scott Richardson

Because I work in another town, I have to take the day off from work in order to go to my eye doctor to pick up contact lens. It is so much more convenient to get them in the mail and it is not nearly as costly. I, therefore support the law that gives me the right to my contact lens prescription.

I wish to be able to take my contact lens prescription to any supplier. I have received terrible service and high prices when purchasing at the doctor's office.

I receive far better service and far better pricing by taking my prescription to a competitive supplier.

Thanks to MDR

I want to be provided with my prescription.

I support the law that gives me the right to my contact lens prescription and not have to pay double the cost for the contacts.

My O.D. told me that if I wanted my contact lens prescription I need to pay 20.00 for a handling fee or buy them from him.

It would be impossible for me to get the service I need for my vision care if I couldn't order my contacts by mail. I live in an area that is remote.

The last eye doctor I saw
told me after my exam that I
wasn't entitled to my
prescription unless I bought
my lenses from him. They cost
fifty dollars more than I
pay at 1-800-Contacts.
I fully support the Contact
Lens Law.
