I, Joanne Mitchell. Support the law which gives me the right to my contact lens prescription.

I want buying my lenses, to be easy and convenient and I want to buy them where I choose to!

I had an experience with my former eye Doctor where after I received my exam he was trying to persuade me to get my lenses from his office. I just said I would prefer to get them from ~~where~~ contacts because it was cheaper, easy & convenient for me. He was very unhappy so I switched eye dr's.

Thank you very much

Please know that I support the new contact lens LAW. It's critical that I have a say over WHO fills my prescription vs. being forced to fill it by someone (usually the doctor) who is out of stock, doubles the cost and is inconvenient. I depend on the convenience of mail order lenses → I travel a lot and I must have this convenience. It also affords me the opportunity to buy them at the best price. Competition is GOOD! Although I don't really believe that you would act to over-rule a law such as the current one that just makes sense - that individuals that pay for a doctor's services should have a right to the result of those services, i.e. the prescription, since this is generally accepted among medical doctors, it should be the same with "eye doctors". Therefore, I support the right to "own" ~~to~~ my glasses/contacts prescript-

It is very important to consumers to uphold the Fairness to Contact Lens Consumers Act of 2003 that was passed. My eye doctor charged \$225<sup>00</sup> for an eye exam and then wanted \$400<sup>00</sup> for lenses I can get direct for \$109. As the patient there is no reason that I should not be given my lens prescription, other than the eye doctor wants to make a lot of money. Do not repeal the current law and please enforce it.

I support the Fairness to Contact Lens  
Consumer Act of 2003. In the past I have  
not been able to get a prescription from  
my eye doctor. The price that he charged  
was at least \$100 more than I would  
have paid at my choice of vendor.  
Perhaps this law will help prices come  
down at the optical stores and eye  
doctor offices - knowing that there is a  
competition.

I had to pay a co-pay just to have an eye appointment. The contact lens section was \$15.00 for that apt. Then on top of that needed to pay \$39 for the prescription to get new contacts, even though nothing changed. I wouldn't have had to pay anything for glasses. Plus, this prescription is only valid for 2 yrs. then I have to pay again. The optometrist was also rude when I said I wasn't going to purchase contacts through them.
