

Please keep the procedure for buying contact lenses easy.

I have had trouble in the past getting my prescription from my eye doctor. It is much easier when they are required to give it to you at the same time as the exam. Thank you.

Please Keep and enforce the new contact lens law.

I support the law which gives me and other Americans the right to my contact lens prescription.

In the past, I had fallen prey to companies such as "America's Finest" which withheld my prescription from me, and forced me to buy over priced lenses from them only. This was costly and inconvenient since I am a military family member and must move every few years to a different state.

Federal Trade Commission,

As a contact wearer of twenty years, I think it is outrageous that the optometrist will not give you a copy of your prescription when you go for an eye exam. They want to monopolize the sale of contact lens forcing you to buy your contacts from them at more than twice the price. The consumer should have freedom to choose where contact lens are purchased.

I urge you to keep contact lens wearers in control of their decision to purchase contacts from the place of their choice. As a single mother trying to make ends meet I've been put in the position of having to purchase my contacts from the eye clinic where my Rx was written. That particular office charged over \$150 - more than I would normally pay for the same amount + brand of contacts I could purchase elsewhere. It is unfair to be forced to purchase any product through any Dr.'s office. The consumer should be allowed to choose where their purchasing dollars goes - and not the eye Dr. Eye Dr's receive their pay through the services they provide. Thanks,

I support the new law protecting my right to shop for contacts through my chosen retailer. Eye Dr's inflate the cost so much that I was wearing my contacts longer than recommended to save money. By buying contacts through 1-800-CONTACTS I can afford to change my contacts more often. Therefore my eyes are healthier due to this. ORIGINAL my Dr would not give me my Rx because he would be losing money. I now can afford to go to my eye Dr more often & change lenses more often.

I strongly support the contact lens law which would give us, the consumer, the right to our prescription & easier access to options for purchasing lenses at ~~lower~~ per costs.
