

Federal Trade Commission:

I support the law that gives me the right to my contact lens prescription.

I want the purchase of my lenses to be convenient, easy and I want the freedom to buy them from whomever I choose. I have been mail ordering them for over 5 years now and have never had a problem with ~~them~~ them. I have saved almost 50% on the cost. Optometrists / ophthalmologists charge a high mark-up price. I strongly urge you to maintain the law that favors the consumer. Please do not print below this line. A.J. Odellijer

I can't believe it's necessary to pass a law
that requires something that is such
common sense. Consumers should never
be restricted from making a purchase
from a vendor of their own choosing.
So, eliminate protectionism in the
contact lens business.

FREEDOM RULES!!

Dear Sirs ,

Please know that I support the Fairness to Contact Lens Consumers Act of 2003. I want to maintain the right to have a copy of my contact lens prescription so that I may exercise the freedom to purchase contacts at the best price.

In the past, when asking for my contacts prescription I was forced to sign a waiver and was strongly discouraged from purchasing from sources other than my provider. I felt this was a violation of my privacy & rights as a consumer. Thank you, Susan Genter

I SHOULD GET MY PRESCRIPTION
WITHOUT CHARGE FROM ANY EYE
DOCTOR. I PAID FOR THE EXAM AND
PART OF THE EXAM IS RECEIVING my

To whom it may concern,

I support the Contact Lens Law. When I asked my Dr. for a copy of my contact lens prescription he charged me \$30. I felt that this was wrong and have switched doctors since. I have the right to purchase contact lenses or eyeglasses wherever I choose. To get the lenses at a discounted rate helps a lot of people.

One of my rights as a U.S. citizen must be the right to obtain my own medical records including my contact lens prescription. No one should be able to dictate to me where I purchase my contacts. I use 1-800-contacts and they have always maintained the strictest of regulations to ensure I have a valid prescription from an ~~optometrist~~ optometrist. I live 40 minutes from a sizeable town and I need the ability to have my contacts delivered to my home. Thank you for your consideration.
