Dear FTC -

Many of the eye doctors or have now expanded to sell glasses/contacts. I've been wearing corrective lenses for 30 yrs. Obtaining glasses or contacts from the provider I choose is important to me.

I support the law that protects my right to the contact lens prescription.

Sincerely, *Kathy Ellen Bennett*

To: The Federal Trade Commission,

I support the law giving me the right to my contract lens prescription. Denying that right limits my buying power and freedom to choose where to buy my lenses. The freedom to choose also allows me to save money since I am on a limited income. Also, I have to wait much longer for my lenses to be available when restricted to buying exclusively from the physician's office.

To whom it may concern:

I want to have the right to my
contact lens prescription,

I want the freedom of choosing from
whom I buy contacts & the ease
of purchasing them.

I don't like being forced to seek
a prescription from a doctor.

Keep it simple.

Dear Ladies and Gentlemen!

This is to inform you that I support the law which gives me the right to receive my contact prescription.

I want the freedom to make a choice where I can buy them -

Actually, the doctors overcharge when I have to get them directly from them. Thus, I support the new Contact lens law.

Thank you. Christine R. Hett

I love this legislation that was passed. The next time my eye professional refuses to give me my prescription — I will have some ammunition!

as an eyeglass/contact lens consumer,
I feel I should be able to purchase
my eyewear wherever I get the best
price. When I changed from glasses
to contact lenses I used a doctor required
by my insurance. It was a very
bad experience. Fortunately I received
my prescription because I would not
have purchased any more eye wear from
him! I also don't feel I should have
my eyes examined every year. My
sight does not change that much and
if it does, I know to have my eyes
re-examined.
