

Fed Trade Commission,
I support the New
new law. My Eye doctor
over charges for my contacts!
It is wonderful to get my
contacts sent to me @ home
without being over charged.

E. Guy.

Dear FTC,

We support the new Contact Lens law.

There have been times that we have moved and the Eye Doctor would not send us a copy of our prescription. They wanted us to buy from them! It's unfair and wrong. Please help us maintain our rights!

Sincerely,
James D. Lakeni.

Getting prescription lenses is difficult because of the requirements to have a prescription. I am glad that 1800 Contacts is bold enough to speak up for its customers. I am sure most customers would like to be free to choose the lenses of their choice with or without prescription.

To whom it may concern,

I support the law which gives patients the right to their contact lens prescription. It is absurd that I could not purchase my lenses where I choose. Otherwise, doctors' offices may easily charge contact wearers higher prices.

To whom it may concern:

I go to a Doctor to have my eyes examined for possible medical problems. I have the right to my prescription because I have paid for a service & it should be available to me.

FTC reps,

I am writing to you because:

- 1) I support the law that gives me the right to my contact lens prescription
- 2) I want to be able to buy lenses in an environment that is both easy and convenient, and I want the freedom to choose where I buy them.
