Subject: Spyware Workshop - Comment, P044509

To whom it may concern,

Spyware it's an invasion of privacy at the very least and should be a crime.

I even got infected on a new computer while download the Windows Critical Updates and Service Packs.

Spyware robs the computer of resources and speed not to mention the cost to the computer owner in spyware prevention.

Spyware/Ad ware is just as destructive as a virus and a much harder to prevent.

I would support legislature for the criminalization of Spyware, Adware and Pop-ups.

Sincerely,

James F Bowling
