Subject: FW: Spyware Workshop - Comment, P044509

I HATE spyware/adware and what it does on my PC at home as well as pc's that I work on at my job. I waste a bunch of time almost everyday fixing pc's because of spyware/adware.

I feel it's is a violation of my pc. If someone came in my house to setup a tape recorder or a video camera I'd kindly have to kick their butt out of my house. Why can these companies just stick their junk on my pc. At the bare minimum, they should let the use know it's being added to thier pc and how to get rid of it. And it should be gone when you get rid of it once. Not something that reinstalls itself when you reboot your pc. It's a total and servere intrusion into my life and pc. I feel that there should be a law against it and that the lawsuits should fly!!! Shut down these jerks.

Thanks,
Tom
