Subject: Spyware Workshop - Comment, P044509

I for one don't understand why it isn't obvious to all that spyware/adware is an invasion of my privacy. Its no different than an illegal wiretap or junk mail, its just a different medium. Its being spied upon for the sole benefit of those doing the spying. I say thumbs up to Utah for having the guts to stand up and be counted on for the good of/and the wishes of the people, not commerce.
