ATTN: GRAMM-LEACH-BLILEY ACT PRIVACY RULE / 16 CFR PART 313

Dear Committee Members,

The possibility of losing the benefits, causes me great alarm. It would virtually paralyze my business. I am a female investigator, having spent 17 years to develop my business, and the "credit header" information is used as a tool for the following reasons.

- \* Locating deadbeat Dads
- \* Finding birthfathers (in Arizona, if an adoption is considered the birthfather must be informed and "due diligence" is required before a child can be placed in a home"
- \* Updated addresses, for persons involved in questionable financial dealings.
- \* Service of process

Our company employs Licensed Private Investigators and we do our best to meet all necessary criteria set up by state and federal laws however, loss of this information will create far greater cost to; the public, Attorneys, state agencies, county adoption facilities, divorced mothers that are barely able to survive much less, a greater cost for finding fathers who attempt to neglect their financial responsibilities, just to name a few.

I ask that you carefully consider these aspects before a final decision is made.

With Thanks,

Lee Pitcher / Investigator
