

Fur Rules Review, Matter No. P074201

Comments on the revised Fur Products Name Guide (under VIII, 2. Revise § 301.0 to read as follows:).

Page 42, Antelope: Replace Ungulata with Artiodactyla (name of Order).

Page 43, Fox, Grey [correct spelling is Gray]: I question including *Urocyon littoralis* because this Island Fox has a limited distribution (Channel Islands off California) and is treated as rare and endangered by the state of California—none can enter the legal fur trade.

Page 44, Jaguarundi: The correct scientific name is *Herpailurus yagouaroundi*.

Page 44, Marten, American: The correct scientific name for *Martes caurina* is *Martes americana caurina*.

Page 45, Peschanik: The fur of this animal is called Peschaniki; the common name is Suslik or Souslik; the correct scientific name for *Citellus fulvus* is *Spermophilus fulvus*.

Page 46, Susilk [correct spelling is Suslik]: The common name for these Ground Squirrels is Suslik or Souslik; the correct scientific name for *Citellus citellus* is *Spermophilus citellus*; the correct scientific name for *Citellus rufescens* is *Spermophilus major rufescens*; the correct scientific name for *Citellus suslica* is *Spermophilus suslicus*.
