Re: Proposed Consent Order  
*In the Matter of* Reed Elsevier and ChoicePoint, FTC File No. 081-0133

Dear Mr. Clark:

I am writing on behalf of licensed private investigators in Texas regarding the proposed consent order and acquisition of ChoicePoint by Reed Elsevier. Our association is comprised of investigators who provide critical services to government agencies, attorneys, state and US courts and others. We rely extensively on services provided by both Reed Elsevier and ChoicePoint and their subsidiaries to assist us in serving these clients.

We urge that the Commission not approve the acquisition until respondents can divest themselves of public records services provided to private industry as well as to law enforcement.

The Commission's complaint found that this acquisition would be **anticompetitive** and a violation of antitrust law in the market for the sale of public records information to law enforcement agencies. The same effects would be felt in the market for sale of public records to the private sector.

It is important to have access to data from several suppliers during the conduct of an investigation. Limited resources reduce both the quality and quantity of information available. And our members, many of whom are small businesses, do not have the financial weight to bargain effectively with large entities in a non-competitive environment. **The public we serve cannot afford increased rates, especially during these poor economic times.**

Unless an appropriate remedy is offered, our members and their clients will suffer irreparable harm. When competition is reduced, incentives for innovation are reduced, prices rise and service suffers.

Thank you for your consideration.

Respectfully submitted,

Sherrie Lacy  
Secretary  
Texas Association of Licensed Investigators
