Chronic fatigue, depression, nervousness, migraines, acid reflux, poor memory, kidney disease, pancreatitis, eczema, abnormal weight gain, cholesterol, diabetes, arthritis, rheumatism, night cramps, allergies... **and the list goes on...**

**Dear Friend,**

You might not realize this, but the health problems that are nagging you may well be caused by your Liver. If you are over the age of 35, have ever eaten meat, have ever drank alcohol, have ever taken a prescription or over-the-counter drug; including aspirin, have ever eaten fast-food, then your Liver is probably functioning at a slower pace and below optimal levels:

Your liver is the largest solid organ in your body. People may not know that the liver is also the largest gland in the body. The liver is actually two different types of gland. It is a secretory gland and it is also is an endocrine gland since it makes and secretes chemicals directly into the blood that have effects on other organs in the body.

*“And now I know the ideal solution with the appropriate relief thanks to a natural treatment that will regenerate, strengthen and rejuvenate your liver.”*

# FAQ.

**Your liver is a very resistant organ!**  
 While all organs submit to the effects of the ageing process, the liver, if well maintained, can work as well at 80 years as at 20.

**Your liver regenerates itself.**  
 The liver has the power to quickly reconstitute itself and therefore to remain young.

If you remove 75% of a liver in an operation, it will only take 4 months for it to get back to its original weight.

**Your liver is a powerful energy source!**  
 Your liver stocks energy along with nutrients essential to fuel your body between meals.

It therefore prevents your organs from suffering for long periods of time even if your food intake is insufficient or unbalanced.

**Your liver is a true vitamin depot!**  
 A healthy liver stocks Vitamin A intensively providing sufficient coverage for your needs for 10 months. It also stocks Vitamin D and Vitamin B12 to prevent deficiencies for 1 to 2 years.

**Your liver is a true iron depot.**  
 Your liver stocks iron, which it combines with protein, making ferritin, thus regulating the levels of iron in the blood.

**Your liver digests everything for you!**  
 Your liver eliminates toxins and other waste products created by food intake and organic function. All this waste is eliminated through bile and then expelled naturally.

**Your liver plays a major role in your immunity!**  
 Through the macrophage cells, it protects you from pathogen germs, bacteria, microbes, viruses, etc.

**Your liver regulates the absorption of sugars and fats!**  
 All liver dysfunction has immediate repercussions on the cardiovascular system.

# Your Health Depends On The Health Of Your Liver.

San Diego Medical Conference saw the participation of 200 specialists from 14 countries.

During a notable San Diego Hepatology Conference, over 200 specialists from 14 countries debated the scope of the results of a recent study on the Liver.

The study was carried out on over 1200 people with various afflictions: hypertension, chronic fatigue syndrome, joint and muscle pain, sexual difficulties, diabetes, kidney function, memory trouble, depression, obesity, digestive problems, IBS, skin conditions, etc.

Through a series of tests and analyses, this study showed that well over 140 diseases are caused by liver dysfunction.

## The Testing Criteria

The 1200 chosen individuals were divided into 4 test groups: 3 groups of 300 people were given blind treatment for a period of 14, 30 or 60 days, intended to reactivate their liver functions, while the last group,

300 people, received a placebo for the same period of time.

The results amazed the entire conference! In fact, among the 4 groups receiving the treatment, only one group of 300 people, showed stunning results. This group was the only group benefiting from the brand new liver reactivation protocol called **BIOThERAPEX LIVER REJUVENATION**.

In just this group alone, all the tests subjects saw their affliction symptoms recede rapidly and some disappear completely.

**BIOThERAPEX LIVER REJUVENATION** leaves the winner!

**99% satisfaction.**

### FLATTER BELLY, WEIGHT LOSS

You won't need more than just 2 days to see the difference!

After just 2 days of treatment you will definitely feel slimmer. Your stomach is flat and you won't feel bloated after a meal.

You have slimmed down all over, including feet, hands and the face. You feel lighter and rejuvenated.

If you get on the scale, you will be awed at having lost at least 4.5lbs in 48 hours without having done anything special... Nothing better than over-activating your liver to lose pounds and enhance your line.

### EYE ISSUES AND THE TELL TALE SIGN OF LIVER PROBLEMS

You will see the first effects of **BIOThERAPEX LIVER REJUVENATION** on your face and eyesight. First observation; the whites of the eye are clear again and the dark rings and circles have receded overnight. The bags under the eyes have reduced significantly and will disappear in the coming days.

Your vision has improved: ocular fatigue is a symptom of liver trouble since the eyes get their energy from the liver. If you ever get the feeling there is a film of something in front of your eyes, you will notice that this film will have disappeared in under 24 hours and that your vision is much clearer, cleaner and even in low light conditions.

Similarly, irritations and tearing will also disappear in a few days.

### PASTY TONGUE, WRINKLES, SMOOTHER COMPLEXION

Medications are the root cause of your liver's fatigue... Purifying your liver is purifying and rejuvenating your entire body.

Look at your tongue in the morning before eating and you will be surprised at the transformation "before the treatment" and 2 days later... This is very important. A "pasty" tongue is a sign of digestion difficulties, generalized fatigue and pain.

With **BIOThERAPEX LIVER REJUVENATION**, after just 2 days of treatment you will have a perfectly pink tongue again and the rings and bags under your eyes will have gone. Your wrinkles will smoothen and your complexion will glow, an indication of perfect liver health.

### ARTHRITIS, RHEUMATISM

Liver deficiency is one of the root causes of arthritis and rheumatism. Strengthening the liver is one of the best ways to treat arthritis and rheumatism.

From the very first day, you'll notice that the inflammation and the edemas have disappeared; the joint pains have been mitigated. When you wake up you will be stunned at how the rust has gone out of your joints.

In a few weeks of treatment, your rheumatism disappears to never return. Strengthened and reactivated, your liver has expelled the accumulated toxins.

**IT'S NOW UP TO YOU TO TAKE ADVANTAGE OF THIS FANTASTIC PRODUCT FOR YOUR LIVER, AND THEREFORE YOUR OVERALL HEALTH.**

### **Generalized fatigue, irritability, migraines:**

The number of patients seeking treatment for chronic fatigue, depression and migraines, is rising.

I am personally convinced that all these symptoms come from an overstressed, overworked Liver. Purifying and strengthening the liver is the primary therapy I consider in cases of chronic fatigue.

We must keep in mind that the liver is an incredible deposit of vitamins and iron that find their way into the blood and organs when the liver is functioning optimally. The results against fatigue are almost immediate.

This protocol also enables making eye and other health problems disappear by simply purifying and strengthening the liver, without any medication.

**In fact, after strengthening and purifying their liver, my patients regain their energy, wellbeing and optimism very quickly and without the use of toxic and harmful medication. BIOTHERAPEX LIVER REJUVENATION is the only natural product I recommend to all my patients without any hesitation!**

**Dr. Abrodovich** Minneapolis, MN  
Gastroenterology

### **Digestive problems:**

Digestive difficulties, stomach pain and heart-burn are the first symptoms to show up in the event of liver problems.

I suggest to my patients BIOTHERAPEX LIVER REJUVENATION first and foremost as a natural remedy for digestive problems.

BIOTHERAPEX LIVER REJUVENATION is a true liver detoxification protocol. Cleansed, purified and strengthened, your liver can work perfectly once again. Digestion is improved in just days; bloating and flatulence disappear along with constipation problems.

In addition, when people lose weight, often it is a sign of the liver's and the kidney's good expulsion abilities.

**BIOTHERAPEX LIVER REJUVENATION acts from the second day of treatment. The digestion problems disappear and patients are surprised to discover that they have a better complexion, better-looking hair and that they 'feel much better' after a few weeks of use.**

**Some abnormalities disappear on their own just by strengthening the liver; migraines, skin problems, eye fatigue and irritability.**

### **Cholesterol, Lipids, Diabetes:**

When I notice a patient with high cholesterol, elevated fat and sugar levels, and diabetes, the first thing I treat is the liver.

In fact, successful blood flow and filtering in the body really depend on the liver (did you know that the liver filters 24 Gallons of blood per hour which makes 687 Gallons per day?). The liver handles and regulates fat, protein and sugar breakdown.

So any irregularity of the liver *will cause an immediate impact on your entire system.*

After a few days of use, I saw patients regain a normal blood pressure and their leg and ankle edemas naturally disappeared.

By purifying and strengthening the liver, many patients saw an immediate drop in their blood cholesterol and sugar levels.

**Strengthening the liver is the most effective way of avoiding hypertension, diabetes and cardiovascular problems. BIOTHERAPEX LIVER REJUVENATION is by far the best natural formulation for strengthening, rejuvenating and regenerating the liver.**

**Dr. Browning**  
Houston, TX  
Rheumatologist

### **Arthritis, Rheumatism, Back Pain and Joint Pain**

People whose liver cannot manage to get rid of toxins often suffer from the debilitating effects of Arthritis, Rheumatism and Back Pain.

These toxins can then invade the joint, which subsequently causes the muscles to break down and eventually lose flexibility. Your liver is the body's biggest filter and purifier. If it works well, it gets rid of toxins and waste along with bile.

That's why any rheumatism or arthritis treatment must absolutely go through hepatic therapy.

Even if they provide some form of relief, analgesics and anti-inflammatories are not a long-term solution because they have very negative side-effects and are extremely toxic to the liver.

**By suggesting to my patients BIOTHERAPEX LIVER REJUVENATION: They obtain excellent results against joint related diseases (osteoarthritis, rheumatoid arthritis, back pain and even muscle arthritis) and against muscle pain due to fatigued liver... which if not properly addressed can elevate blood toxin levels.**

**Specific enzymes are added to this rich and proprietary blend of ingredients:**

Both **Bromelain** and **Papain** are Liver enzyme that aids in various ailments and boost general health. They have been linked to improved blood circulation, heart health and breathing conditions. They improve digestion, are anti-inflammatory, improve overall immunity, reduce inflammation, treat irritable bowel condition, slow clotting and they may help inhibit tumor growth, as well as sweeps the body and liver of fat, thus making your liver work more efficiently.

**Creatine Phosphate** is an enzyme needed by the Liver for overall health, wellness and energy. Creatine Phosphate gets stored in the muscles, where it is used for overall energy. It helps repair damaged muscles and organs, and may also help increase lean muscle mass. It has been shown help lower levels of fats in the blood and the liver which leads to a more efficient and effective liver.
