## From the Desk of Carl Pradelli President, NatureCity®

### Dear Friend,

Even though Aloe vera has been around for thousands of years, it's suddenly become the latest Superfood health and beauty craze.

It's easy to see why.

Prescription and over-the-counter medications provide relief for many health concerns. But either the relief is short-lived, or the side effects are so dangerous you're not allowed to take them for long.

And with many nutritional supplements and vitamins...your health never really changes or improves, so how do you know they're even working?

That's what's so marvelous about Aloe vera – you can see and feel your health improving and you don't have to worry about side effects.

Starting in about 1 month, the over 300 nutrients in Aloe vera will help you say goodbye to:

- ✓ Irritable bowels and burning gut acid
- ✓ Embarrassing gas, indigestion, stomach upsets and constipation
- ✓ Joint and muscle aches and pains
- ✓ Out of control inflammation
- ✓ Rollercoaster blood sugar levels
- ✓ Unhealthy cholesterol and tri-

glyceride levels

- ✓ Unbalanced blood pressure
- ✓ Wrinkles and fine lines
- ✓ That sluggish, no energy feeling

Sound outlandish?

Well, hundreds of scientific and clinical studies prove Aloe vera is rich in 10 natural pain and inflammation fighters PLUS an amazing, life-giving sugar that is the backbone of Aloe vera's unique health properties – *polysaccharides* – that instantly trigger your body's Natural Killer Cells (NK cells).

This helps block pain, help calm inflammation, battle viruses, bacteria and fungus, naturally boost your energy levels, help protect against heart damage and out of control blood sugar levels, soothe a gut gone wild with acid...and a host of other benefits.

**In fact, over the last 12 years, thousands of our clients have experienced a lasting health rebirth with the help of a teeny capsule called TrueAloe™.**

**Some began taking it 12 years ago...and have never stopped because the health benefits never stopped!**

**They're in good company!**

In 1,000 B.C., King Solomon, the greatest Old Testament gardener, grew Aloe for medicinal uses.

Christopher Columbus considered Aloe a medicinal wonder plant and used the pulp to save his crew on the Santa Maria from disease. He called it the "doctor in a pot."

Mahatma Gandhi said it was one of "the secret forces" that kept him alive during his fasts.

And it was Cleopatra's secret for her glowing beauty.

Here are the powerful health benefits you'll enjoy in every teeny capsule of TrueAloe™.

### **Pain Says Goodbye When You Say Aloe!**

Pain is your body's alarm bell. It is caused by PGE-2 prostaglandins. When you're injured, PGE-2 prostaglandins are released and you experience pain, inflammation, aches and throbbing.

That's good! It means your body is working properly. And after about 10 days, everything usually goes back to normal.

But if your pain persists that's a sign the inflammation has worsened and is actually spreading like wildfire through your body... doing lots of damage to tissue and cells.

Your PGE-2s are out of control, and your body is helpless to control them.

Time for Aloe's polysaccharides to activate your powerful Natural Killer (NK) cells to help destroy what is hurting you and put your body back to normal!

## **"TrueAloe is God's medicine"**

"I had read testimonials from different people and how it helped them. Knowing it was God's medicine I decided to try it. I did notice a big difference in the pain in my hands, and if I stop taking it my joints start really aching."

– Beverly H., El Cajon, CA

## **"Thanks a million for introducing TrueAloe to us!"**

"Before TrueAloe I had constipation and bloating. Now I go regularly and I'm no longer bloated. I'm so relieved! TrueAloe helped my blood sugar levels improve – 40 points on average!"

– John V., Lady Lake, FL

Your relief is FAST...and lasting...as long as you stick with TrueAloe™!

That's why TrueAloe™ is so effective in soothing joint and muscle pain...

...and is the #1 reason thousands of our clients started taking TrueAloe™.

But they also discovered another TrueAloe health secret that science has finally gotten around to studying AND confirming.

You see, unlike aspirin or ibuprofen, TrueAloe™ actually helps your digestion:

**Forget Zantac®...  
Forget Prilosec OTC®...**

**Only TrueAloe™ Delivers  
Continuous, Soothing Gut Relief  
with NO Side Effects!**

An irritable gut – burning acid in your throat, stomach pain, bloating, embarrassing gas, diarrhea or constipation or both, nausea – are all signs of a gut under attack and unable to switch on the NK cells necessary to stop inflammation and soothe your gut wall.

But you're miserable, so what are your options?

Expensive antacids like Zantac® or a protein pump inhibitor like Prilosec OTC®?

These products are dangerous if taken every day! So you'll never be able to enjoy continuous, safe relief if you rely on them.

And to add insult to injury, they've discovered that Zantac® may increase your risk of developing pneumonia! That's crazy.

## The "Wise King" and many other historical leaders depended on the **benefits of Aloe vera!**

**King Solomon** grew his own Aloe vera!

**Queen Cleopatra** said it was her beauty secret...

**Christopher Columbus** used it to keep him and his crew healthy...

**Mahatma Gandhi** used it to stay alive...

## The Gold Standard in Aloe vera Capsules

To give clients the best Aloe vera supplement possible, NatureCity® has teamed up with the distinguished medical doctor, Ivan E. Danhof, Ph.D, M.D., who is recognized worldwide as one of the foremost authorities on Aloe vera.

And if you're looking for the Gold Standard in Aloe vera supplements... you've found it.

It's called TrueAloe™... which is the English translation of the Latin "Aloe vera."

Here's why TrueAloe™ is as good as it gets...

✓ TrueAloe™ contains 100% USDA certified organic Aloe vera

grown in ideal pollution and chemical free conditions.

✓ TrueAloe™'s potency is maximized using a patented method developed over 30 years by Dr. Danhof.

✓ Each batch of TrueAloe™ is personally analyzed by Dr. Danhof to ensure purity and potency before it gets bottled and delivered to our clients.

✓ TrueAloe™ has been certified with the seal of approval by the independent International Aloe Science Council (IASC) validating its Aloe content and purity.

### TrueAloe™ Safely Soothes a Gut Gone Wild with Acid.

Not only does TrueAloe™ wake up your body's NK cells, its polysaccharides play a special role.

**TrueAloe™'s polysaccharide protective barrier**

*Plus...*

**Its ability to dial down burning stomach acid**

*Equals...*

**Real relief to a burning gut.**

You see, TrueAloe™'s life-giving polysaccharides are made up of mannose and glucose.

The cells lining your digestive tract are composed of mannose-bind-

ing receptors. They recognize and reach out to TrueAloe™'s polysaccharides, pulling them close.

Once joined, they build a protective barrier to the "bad" bacteria that are tearing your gut apart.

Then, the NK cells called into action by Aloe, attack, absorb and eliminate the bad bacteria, whisking it out of your body for good.

### Clinical Studies Demonstrate Aloe's Power to Fix Your Digestive Problems.

A recent pilot study in the *Journal of Traditional Chinese Medicine* examined whether Aloe vera can help with occasional symptoms associated

[www.naturecity.com/save](http://www.naturecity.com/save)

with acid reflux – GERD – and had exciting findings.

Aloe vera was compared head-to-head against Zantac® and Prilosec OTC®.

This four week study involved 79 individuals aged 18-65 who were diagnosed with GERD. The researchers divided the 79 study participants into three groups:

1. **The Aloe vera group – who drank the equivalent of 500mg of Aloe vera daily,**
2. **A group taking 20mg of Prilosec® daily, and**
3. **A group taking 150mg of Zantac® twice a day.**

Impressively, the improvement in symptoms from Aloe vera was comparable to the effects seen with the two over-the-counter (OTC)

products!

**In the Aloe vera group, significant improvements were recorded at just 2 weeks for:**

- ✓ Heartburn
- ✓ Food regurgitation
- ✓ Dysphagia (difficulty swallowing)
- ✓ Flatulence
- ✓ Belching
- ✓ Nausea, and
- ✓ Acid regurgitation.

BUT two participants in both the Prilosec® and Zantac® groups had to drop out of the study because of the adverse effects of those products...

*There weren't ANY dropouts in the Aloe vera group!*

Even better for those who got Aloe vera...there was further noticeable improvement in the frequencies of heartburn, flatulence and belching

## **“I believe TrueAloe is doing wonders for my whole insides”**

“I have been taking TrueAloe for over a year and have noticed remarkable improvements in my health.

Ten years ago I was diagnosed with a gastrointestinal problem. I have had no flare-ups since I've taken TrueAloe and noticed I can eat things I couldn't before.

I started with 4 capsules twice a day for the first bottle and then 2 capsules twice a day. After about a month, I noticed decreased pain in my hip and joints and I wasn't waking up with neck pain anymore. Now I was able to put 3 cords of firewood in my basement for winter, bending, stooping and lifting without pain! I wasn't sore at all.

I am 63 years old and wish I had found TrueAloe sooner. It has really made a good difference in my life. I will continue to take this remarkable product because I believe it's doing wonders for my whole insides.”

# Aloe's True Pioneer and NatureCity® Partner to Bring You the Best!

**Y**ou'll be pleased to know that TrueAloe™ was developed in partnership with one of the world's foremost authorities on Aloe vera, Ivan E. Danhof, Ph.D., M.D.

You can read about Dr. Danhof's distinguished career in medicine below. He has spent much of his last 30 years researching the Aloe vera plant.

In fact, in the late 1970s, Dr. Danhof was the first to identify the various nutritional components in Aloe vera...hence why many of his peers call him one of "Aloe's true pioneers."

To date, Dr. Danhof and others have identified over 300 biologically active compounds in the remarkable Aloe vera

plant... almost five times more than any other plant Dr. Danhof has come across in the world.

Dr. Danhof and NatureCity® President Carl Pradelli share a common goal... *keeping you as healthy as possible!*

As important, NatureCity® uses Dr. Danhof's patented process that maximizes the potency of TrueAloe™ - so you can get the most benefits.

What's more, **Dr. Danhof personally inspects and tests every batch of Aloe vera used in TrueAloe™** to ensure it meets his high standards for purity and quality. You won't get it, if Dr. Danhof hasn't inspected it!

**Read on to learn about Dr. Danhof's "secret garden".....his handpicked location for growing the best organic Aloe vera possible!**

## Introducing Dr. Ivan E. Danhof, the world's leading authority on the Aloe vera plant

**Dr. Danhof attended** the University of North Texas where he received a bachelor's degree in biology and chemistry, and a master's degree in microbiology.

He continued graduate studies at the University of Illinois where he earned a second master's degree in nutrition and a Ph.D. in physiology.

He then attended the University of Texas Health Center Southwest Medical

School to earn a Doctor of Medicine degree with clinical specialties in internal medicine and gastroenterology.

He has published more than 80 research papers and served as a consultant to several pharmaceutical research institutes as well as the Food and Drug Administration.

But it was as a Fulbright scholar in 1969 and 1970 that Dr. Danhof discovered the power of herbal

medicines.

As a result of his unique training and background, Dr. Danhof has become recognized as one of the world's foremost experts on medically active herbal molecules (such as Aloe polysaccharides).

Of particular importance are his discoveries of the functional components and unique molecules in Aloe vera.

**At NatureCity®, we work with the best to bring you the best!**

# TrueAloe™'s Polysaccharides are Indestructible!

A unique feature of TrueAloe™'s polysaccharides is their ability to pass through the stomach and digestive tract and into the blood stream without being destroyed by stomach acid or digestive enzymes.

What does this mean for you?

Unlike other "solutions" you may have tried, the polysaccharides in TrueAloe™ actually reach your blood stream, where they are able to fulfill their immune-supporting functions.

They don't just talk the talk... they walk the walk, balancing your system and providing it exactly what it needs to erase pain and control inflammation!

## The power of TrueAloe™ polysaccharides

1. They are essential in virtually all intelligent interactions between the cells of the body.
2. They're a crucial part of cell intelligence and activity.
3. They play an important role in helping your body distinguish what belongs in it from what does not belong.
4. They rush critical enzymes and NK cells to your internal "wound," safely eliminating pain and inflammation.
5. They trigger lasting relief..

that continued past the 2 weeks!

## No Aloe Vera Dropouts! That's Because You Can Take it Until the Cows Come Home – with No Side Effects!

Results of a double-blind, randomized, placebo-controlled trial were published in the April-June 2015 issue of *Annals of Gastroenterology*.

44 hospital outpatients suffering from ulcerative colitis (UC) were randomly given either Aloe vera or placebo for 4 weeks.

UC is an inflammatory bowel condition that affects the innermost lining of your large intestine and rectum.

Symptoms include abdominal pain and cramping, diarrhea, fatigue, fever and rectal pain.

In just 4 weeks, 47% of the patients who received the Aloe experienced relief from their symptoms.

In addition, inflammation was measured – and had been reduced – at the cellular level.

But most encouraging was the conclusion that Aloe vera is safe!

## With Aloe, Symptoms Subside and You Just Feel... Better.

The first to truly study Aloe vera's digestive benefits was Dr. Jeffrey Bland when he was at the Linus Pauling Institute.

In his clinical study, Dr. Bland found drinking 2oz of Aloe vera three times daily helped patients in the following ways:

**8 CALL NOW 1-800-651-3066**

- ✓ Improved digestion without causing diarrhea
- ✓ Balanced acid levels by acting as a mild antacid – gut pH increased by an average of 1.86 units
- ✓ Reduced yeast content
- ✓ Acted as a prebiotic – promoting “good” bacteria in the colon
- ✓ Improved bowel regularity.

What’s more, many of the patients were excited to finally be regular and free of gas and bloating after eating.

AND, as exciting, patients reported an increase in energy levels and improved sense of well-being. They simply felt better.

**Aloe Cuts Your Risk of Prediabetes By Helping To Manage Blood Sugar Levels AND Improves Cholesterol and Triglyceride Scores.**

Yes, that's right, one safe solution (TrueAloe™) protects you from three silent dangers.

A number of clinical studies have shown Aloe vera aids blood sugar health.

The most recent study was published in the 2015 issue of *Journal of Diabetes & Metabolic Disorders*.

This study involved 72 people who were diagnosed as prediabetic and had fasting glucose levels (a measure of current blood sugar level) at 111mg/dL and hemoglobin A1C levels (a measure of your body's long term blood sugar control) at 6.0%.

A healthy fasting blood glucose level is BELOW 101mg/dL and a healthy hemoglobin A1C level is BELOW 5.7%.

They were divided into three groups...

One group took 600mg of Aloe vera, the second took 1,000mg of Aloe vera, and the third took a placebo, daily for eight weeks.

**Both Aloe Vera Groups Moved Their Fasting Glucose and Hemoglobin Levels to NEAR NORMAL!**

Those taking 600mg of Aloe improved their fasting blood glucose from 111mg/dL to 108mg/dL. Their hemoglobin A1C dropped from 6.0% to 5.7%.

## “No More Stiffness & Cracking Joints”

“I started using TrueAloe about 2 years ago when it was recommended to me by my father. I will not be without it.

I have always (it seems) had issues with my lower back. When it was good it was just OK, but once or twice a year when something would set it off the pain was unbearable not to mention debilitating.

An MRI showed a “large severe herniated disk, L5S1.” This meant 2 or 3 times a week at the chiropractor, one a week in physical therapy. The co-pays alone were a killer! Both parties recommended surgery. Then I began on your TrueAloe, 3 capsules twice a day. To make a long story short, I have not been to ANY doctor or therapists for my back in about 2 years. I simply don’t need them.

Of course, I do still have an injury that isn’t going to fix itself but I am pain free! No more ice packs, muscle relaxers or pain pills. I don’t need them anymore. I have TrueAloe. I have improved mobility, no more stiffness and no more cracking joints.

Also, your company is a pleasure to deal with both online and on the phone. And I love the samples that are included in my regular orders! It’s a nice touch. Thanks again!” – **Bruce D., Redding, CT**

erfully.

Fasting glucose declined from 111mg/dL to 104mg/dL over eight weeks, while hemoglobin A1C levels plummeted from 6.0% to 5.6%.

Near normal, healthy levels simply by taking Aloe vera!

### **No One Was Expecting Improved Cholesterol and Triglyceride Scores.**

- ✓ Total cholesterol improved from 243mg/dl to 218mg/dl after 8 weeks.
- ✓ LDL cholesterol improved from 152mg/dl to 138mg/dl;
- ✓ Triglyceride levels improved from 179mg/dl to 169mg/dl;
- ✓ HDL cholesterol levels also improved from 31mg/dl to 35mg/dl.

### **Were those improvements just a fluke? Absolutely not!**

#### **Another Group Of Participants Enjoyed a Health Rebirth in a Clinical Study Conducted At The University of California Davis**

In this significant study, those who took 1,000mg of Aloe vera daily for 8 weeks experienced a significant improvement in their blood sugar – dropping from 111mg/dL to a much healthier 105mg/dL.

Hemoglobin A1C improved slightly, from 6.0% to 5.9%.

This study also measured insulin levels – which improved by 14%, dropping from 18.6 mIU/mL to 16.0 mIU/mL.

But here’s what happened to cholesterol, LDL and triglycerides:

**12 CALL NOW 1-800-651-3066**

After the 8 weeks of 1,000mg of Aloe vera, cholesterol dropped by an impressive 20 points, to a very healthy 186 mg/dL, moving from borderline bad to BEST.

And most of this improvement was a decrease in bad, LDL cholesterol, which dropped by 17 points – from 135 to 118. Once again, Aloe vera turned borderline bad levels to BEST!

Finally, triglyceride levels dropped from 156 to 148...yes, you guessed, from borderline high to

lent danger responsible for thousands of deaths: C-reactive protein (CRP).

CRP is an indicator of inflammation in your body, and high CRP levels are linked with high heart disease risk.

Data from the Physicians Health Study, a clinical trial involving 18,000 apparently healthy male doctors, found that elevated levels of CRP were associated with a threefold increase in the risk of heart attack.

And in the Harvard Women’s Health Study, results of the CRP test were more accurate than cholesterol levels in predicting heart problems. Women in the group with the highest CRP levels were more than four times as likely to have died from coronary disease, or to have suffered a nonfatal heart attack or stroke compared to those with the lowest levels.

### Dangerous CRP Levels Decreased 38%!

Not only did 1,000mg daily of Aloe vera lower cholesterol, LDL and triglyceride levels to BEST...it decreased dangerous CRP levels 38%.

### 5,000 Patients Show Aloe Vera’s Ability to Protect Your Heart.

In 1985, O.P. Argawal, M.D., completed a landmark 5-year study of 5,000 patients with heart disease.

The participants were instructed to add Aloe vera to their diet -- it was added to bread eaten at lunch and dinner.

All patients were instructed not to consume alcohol during the study and smoking was not allowed.

After just 3 months, 93% of the patients experienced a significant improvement in serum cholesterol and triglyceride levels.

And not one of the 5,000 patients taking Aloe vera suffered a fresh heart attack.

Because according to the American Heart Association:

*“One out of four men and one out of three women who live through an attack will die within the following year; most often of cardiac arrest or*

Remember we mentioned that Cleopatra said Aloe vera was her beauty secret?

She may not have had the science, but she certainly could see the results. That’s because a recent study proves she was right!

30 women over the age of 45 were given either 1,200mg or 3,600mg of Aloe vera for 90 days.

They were not allowed to use anti-wrinkle cosmetics, whitening cosmetics, topical retinoids or chemical peels, or take any other super food or vitamins during the study.

**A Fountain of Youth in  
Each Teeny Capsule.**

The study concluded that Aloe vera significantly improves wrinkles and elasticity and increases collagen

production.

You’ll have healthy, glowing skin with fewer wrinkles and more youthful plump.

**So, is ALL Aloe Vera  
the Same?**

No!

As Aloe vera becomes more popular, many companies have figured out an easy way to make a quick buck.

## If You Can’t Trust CVS, Target or Walgreen’s, Who Can You Trust?

Several big retailers – CVS, Target, Walgreen’s, and Dollar General – have ALL stocked their shelves with several products that claimed to be 100% Aloe, but didn’t have a single drop of Aloe!

Worse, and really shocking, is that some of these products were loaded with propylene glycol... a form of antifreeze.

Or, more commonly, many retailers selling Aloe-like products have laced their Aloe with all kinds of fillers...like maltodextrin...because fillers are cheaper than Aloe powder.

In fact, if the powder in your capsules is pure white, you likely got a capsule full of fillers!

The label on the bottle says something like “Enriched Aloe vera” – and now you know why. It’s enriched with maltodextrin!

It’s a shocking fact that as much as 75% of Aloe vera sold today may not be pure...or has lost up to 40% or

more of the beneficial nutrients.

**In a Secret Garden, Protected by Geese, Untouched by Pesticides, is a Pristine Corner of the World Known Only to Dr. Ivan Danhof...**

...where you can trust the finest Aloe vera in the world is grown for TrueAloe™.

That's because it's hand harvested and then processed with a patented freeze-drying method that protects

and preserves the valuable polysaccharides, pain and inflammation stoppers, enzymes and nutrients.

**What Makes the Aloe Vera in TrueAloe™ So Much Better?**

To give you the best Aloe vera supplement possible, NatureCity® teamed up with Ivan E. Danhof, M.D., Ph.D.

1. Dr. Danhof's team personally considered over 50 locations

**Are you paying for Aloe or filler? Take the 2-cent iodine test.**

- 1 Go to the drug store and buy a bottle of iodine.
- 2 Pour about 2-cents worth of iodine in a clean dish or bottle cap.
- 3 Gently open 2 or 3 Aloe capsules, and pour the powder into the iodine. Stir. Wait a few minutes.
- 4 If the liquid turns blue/black, guess what? You've got capsules loaded with maltodextrin! It's not pure Aloe!
- 5 Do the same with a TrueAloe capsule...it gets stained by the iodine, but does not turn blue or black.

That's because every capsule of TrueAloe is made from the entire Aloe leaf...no fillers allowed.

Iodine Alone

TrueAloe™ added to iodine

Competing Aloe product added to iodine

TrueAloe™ does not turn black in iodine because it's pure Aloe!

This competitor's Aloe product turns pitch black because it's made with starch! Customers of this company are being ripped-off!

## Just How Potent is TrueAloe™? It Was Tested Against Three Other Aloe Vera Powders... ...and Won Hands Down.

For over 15 years, our clients have used millions of bottles of TrueAloe™.

That's great! But I'm not what you would call "easily satisfied."

In fact, those who know me say I'm...difficult! Why? Because even though every batch of TrueAloe™ goes through the 12-steps I just shared with you, I still wanted to make sure every capsule was as potent as possible.

You see, our employees, families and YOU depend on TrueAloe™ to deliver the best health products in the world. I take that responsibility personally.

**"I feel NatureCity must be a family of friends. You really care!"**

"I have suffered with acid reflux most of my adult life. I was prescribed a drug to take but I had a reaction to it. I can't take any of the proton pump inhibitor medications. TrueAloe is the first, true relief I have had from stomach problems in years! My usual daily dose of TrueAloe is 5 capsules but if I am having a bad day I can take an additional pill or two to get it back in line. Because TrueAloe is a natural product I can do that without fear of over-medicating like (what would happen with) a prescription drug.

I feel like NatureCity must be a family of friends. I feel like you really care about your customers."

– Carol K., Roanoke, VA

## Thank you for a great product!

For the past 7 or 8 years I have been taking a large number of medicines. A few months ago I received my first order of TrueAloe – and I started taking it the same day. I had been taking 2 Tylenol at bed time so I could rest. After one week of TrueAloe, I have not had another Tylenol.

Up to this date, I have been gradually able to stop taking three prescription medications and one blood pressure medicine. I can honestly say I am feeling better than I have in years!

For the last several years, I have had to pay someone to do my yard work. I have now started doing a lot of it myself again. In addition to feeling better, my blood pressure is in a better range and more stable than it has been in a long time. – Charles K., Charlotte, NC

## “Amazing relief from pain and stiffness.”

“I have pain in my knee and pain and stiffness in my neck and shoulders and, recently, my right foot. Since taking TrueAloe, I have had amazing relief from pain and stiffness. I no longer take over-the-counter or prescription drugs, since I try to avoid their side-effects to my liver and kidneys.” – Miriam P., Philadelphia, PA

“Several years ago I injured my shoulder and had extreme pain when trying to raise my arm past my head. I started on TrueAloe and in about 6 weeks I could raise my arm above my head without pain. I took TrueAloe for a couple of years, and for some reason I stopped taking them. My shoulder regressed back to the painful state it was in before, so I ordered TrueAloe and sure enough my shoulder started getting better in several weeks and now is the best it has ever been!”

Also, your employees are wonderful, very knowledgeable and professional. They answer all my questions and once, someone didn't know an answer, and he called me back! I think this is remarkable!”

“When I sat down to prepare my meds for the following week, I realized I had forgotten to include TrueAloe and knew immediately why the pain had returned. # Welcome to the Family!

The other day I was checking on our Customer Service Team to make sure they were doing a good job. I heard David tell a customer that he would "wait to place her order until next week because that's when we were having an Anniversary special on TrueAloe and she would save the most money."

Wait to place an order to save the most money?! Is that what a company's Customer Service Team is supposed to do?

Yes! At least, that's what I expect from the NatureCity Team.

You see, you're not just a customer to me...you're family.

Family deserves the best. The best health products, the best price, the best deals, courtesy and respect.

I'm proud to say that over the past 15 years we've helped thousands overcome pain, indigestion, and other, serious health issues.

But I'm even more proud of the fact that you...and they...know we

care. We let you know when you can save the most money, we'll hold a shipment until your social security check arrives, we'll ship to another address if you're visiting your grandchildren...we'll do our part to help you have a healthier, happier life.

And I promise we'll do that for as long as you honor us by trusting us with your health solutions.

Sincerely,

Carl

*"Customer service has been fabulous. I've enjoyed being with this company. Everyone is honest and truthful. I enjoy what Carl writes - he must be a tremendous employer! I love the card they send every year. You're a great company. I'll hang on to you as long as you'll hang on to me."*

P.S. Why is a free bottle of TrueAloe™ one of your gifts today with the Best Value Deal? Because you deserve a fair and honest deal for your money. Please let me explain.

You see, we've discovered that

the best way to get the maximum benefit...and quicker results...is to begin with an increased amount of 4 capsules twice a day (8 capsules) for the first 14 days. Then you can take 2 capsules twice per day, as suggested on the label.

This is called "front-loading" and many feel relief within one week! It's very effective...BUT it uses up 112 capsules, which is almost a one month supply.

That means you'd only have 5 months left...and I don't feel right about that.

So my gift to you is your 7<sup>th</sup> bottle, free, because you've paid for 6 months and you should get a full six months!

# 100% One Year Money Back Guarantee!
