

eleven relevant geographic markets to the four buyers no later than 10 days following the respective closing date under the Respondents' agreement. Pursuant to the Respondents' acquisition agreement, the Acquisition will be effectuated through eight separate closings over a period of approximately 10 weeks. This staged closing will allow both Bi-Lo and the buyers of the divested stores to re-banner the acquired stores in a timely and orderly manner. The divestitures will take place no later than 10 days after the closing involving the relevant

divestiture store. If any of the buyers are not approved by the Commission to purchase the assets, Lone Star and Bi-Lo must immediately rescind the divestiture agreement and divest the Delhaize America store and related assets to a buyer that receives the Commission's prior approval. Further, for a period of one year, the Order prohibits Respondents from interfering with the hiring of or employment of any employees currently working at the Delhaize America stores in the divestiture markets. Additionally, for a period of 10 years, Lone Star and Bi-Lo

are required to provide the Commission with prior notice of plans to acquire a supermarket, or an interest in a supermarket, that has operated or is operating in the counties that include the relevant geographic markets.

*Information Collection Request Title:* Support and Services at Home (SASH) Participant Survey

*Abstract:* The Office of the Assistant Secretary for Planning and Evaluation (ASPE) is requesting approval from the Office of Management and Budget (OMB) to conduct a survey of Support And Services at Home (SASH) participants to assess the impact of the SASH program on health outcomes.

Information collected includes general health status, functional status, quality of life, medication problems and dietary issues. The SASH program operates in Vermont and links staff based in housing properties with a team of community-based health and supportive services providers to help older adults coordinate and manage their care needs. SASH services include: Assessment by a multidisciplinary team, creation of an individualized care plan, on-site nursing and care coordination with team members and other local partners, and community activities to support health and wellness. SASH is anchored in affordable senior housing properties, serving residents in the property and seniors living in the surrounding community.

The goal of this project is to conduct a comprehensive evaluation of the SASH program. The evaluation will assess whether the SASH model of coordinated health and supportive services in affordable housing improves quality of life, health and functional status of participants. The evaluation has been designed to comprehensively address the research questions while minimizing the burden placed on the SASH program staff, their partners (e.g., service providers), and Medicare and dually eligible Medicare and Medicaid beneficiaries. The mail survey is designed to collect outcomes that
