

**Guaranteed to reduce your heating and cooling use by up to 49%\*.** When you replace all of your old windows with SeriousWindows 600 Series, you'll not only improve your living comfort and your home's value, but you can significantly lower your heating and cooling consumption. If you spend \$300 a month in heating and cooling, with Quantum2 windows you can potentially save up to 49%, that's a savings of over \$14,400 in a decade. That's why we say SeriousWindows 600 products are an annuity, because they will pay for themselves over time.

Energy savings may vary and depends on numerous factors and variables pertaining to your windows and dwelling. Cost savings in this example does not include any energy cost increases.
